Advantech's New Industrial Tablet PC Wins 2015 Taiwan Excellence Silver

Taipei, Taiwan, July 24th, 2015 - The Advantech MIT-M101 ruggedized tablet PC was honored with the Taiwan Excellence Silver Award 2015. Outstripping 1,155 competing products from 448 vendors, the MIT-M101 survived keen competition to win the award. MIT-M101 was recognized superior in five categories: R&D, design, quality, marketing, and Made in Taiwan; only nineteen other Gold & Silver winners enjoy the same recognition.

MIT-M101 Makes the Impossible Possible

The MIT-M101 elegantly overcomes the dual challenges of ruggedness and lightness. It operates perfectly from -10°C to +50°C. It endures a 4-6 foot MIL-STD-810G standard drop test, IEC60068-2-64 random vibration test, IEC60068-2-29 bump test and earns a IP65 dust/water protection rating. The MIT-M101 weighs only 1.1 kg, with a height only 20mm and an outstanding, stylish design.

MIT-M101 Facilitates Multi-market Applications

The MIT-M101 is designed to be deployed in various markets with its exclusive extensions, such as docking station, 3-in-1 back cover, strap, rubber bumper, stylus, and extended battery pack. In field service, the MIT-M101's featured seamless communication and long-lasting power enable dynamic dispatch and optimized workflows. In warehousing, the MIT-M101 can be either handheld or vehicle-docked. Its high performance and reliability even in extreme working temperatures and rough conditions make it a trustworthy assistant in every scenario. In healthcare, the MIT-M101 captures real-time information for medical personnel, making accurate clinical diagnoses and clinical communications possible. MIT-M101's IPx5 water resistant design prevents unexpected shutdown caused by splashing liquids. Moreover, the accessory stylus makes glove removal unnecessary, and the anti-bacterial feature allows for easy cleaning.

MIT-M101 Key Features

- Intel® Celeron® N2930 Quad Core processor
- Supports Windows 8 Operating System
- 10.1" WXGA, Projected Capacitive Multi Touch Display
- -10°C to 50°C (14°F to 122°F), IP65 compliant, 4-ft drop MIL-STD 810G compliant
- Compact/slim design: 20mm/0.79 inch height
- Seamless communications, including Wi-Fi, BT, NFC, GPS, Optional 3G or 4G LTE
- Warm-swappable battery
- Optional integrated 1D/2D barcode scanner, and expansion module (MSR+SMC)
- Optional accessories include: 6-ft drop rubber bumpers, docking station, rear hand strap, and kickstand

About Advantech

Founded in 1983, Advantech is a leading provider of trusted, innovative products, services, and solutions. Advantech offers comprehensive system integration, hardware, software, customer-centric design services, embedded systems, automation products, and global logistics support. We cooperate closely with our partners to provide complete solutions for a wide array of applications across diverse industries. Our mission is to enable an intelligent planet with Automation and Embedded Computing products and solutions that facilitate smarter working and living. With Advantech products, there is no limit to the number of applications and innovations made possible. (Corporate Website: www.advantech.com)
