Enabling an Intelligent Planet

Integrated Embedded Core Computing

Enabling an Intelligent Planet

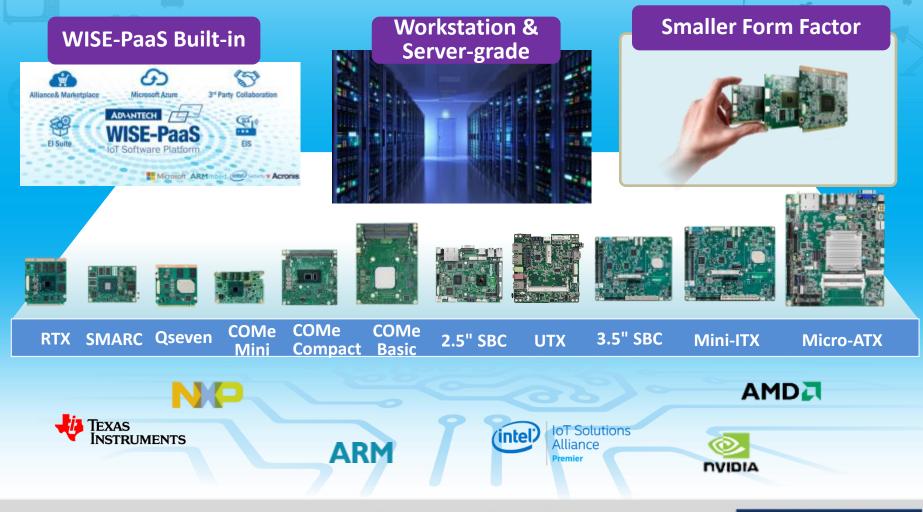

ADVANTECH

Application of Embedded Computing

- Medical Equipment
- Gaming
- Self Service KIOSK
- Smart Agriculture
- Digital Signage
- > ATM/POS
- Industrial Equipment Manufacturing
- IoT PaaS service
- Military / Defense
- > Telecom
- Machinery
- Surveillance

Full Spectrum of X86 & RISC Platforms for Embedded IoT & Verticals

Embedded Module Boards Domain Focus

Computer On Module (COM)

Cloud Storage

Industrial Motherboards (AIMB)

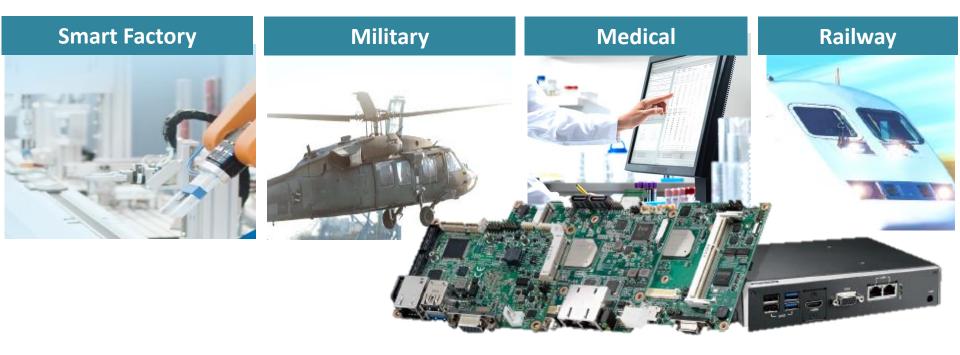

Enabling an Intelligent Planet

Gaming/Signage

Embedded Single Boards Computers (ESBC)

Design To Order Service (DTOS)

Compact Ultrasound Diagnostic Systems Enhanced and Efficient Care for Patients

SOM-5894C Modular design with doubled 3D graphics capabilities IDK-1115MD DICOM Compliant for consistent medical imaging

Enabling an Intelligent Planet

ADVANTECH

Smart Bike Sharing Systems Efficient Transportation with Reduced Carbon and Pollution

Enabling an Intelligent Planet

Factory Automation

Gaming

Machine Automation

Transportation

Fanless Embedded PC (ARK)

Event broadcasting

- Extreme performance platform with triple displays
- Capture and stream event videos with CCTV cameras via HDMI interfaces
- Event streaming and encoding capabilities

Medical imaging

- Compact modular platform with I/O expansions
- Capture and process medical image via DVI interfaces
- Intelligent video analysis for medical diagnosis

Lecture recording

- Ultra slim platform with low power consumption
- Video capture, storage and movement detection
- · Real-time data collection and reports

T2000 Barebone Application Scenario

Digital Signage I Interactive eMenu Board (Thailand)

Application

To simultaneously upload, edit, and dispatch to update the menu information and product promotions at every store through data synchronization

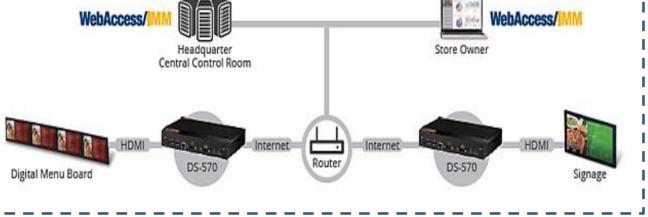

Challenge

- Traditional paperboards cost a lot and take time to update the menu and promotion
- Enhance promotional marketing and management efficiency at each store

Winning factors

- Decrease operational expenses
- Customized BIOS

Enabling an Intelligent Planet

Digital Signage | Video Wall (Guangzhou, China)

Application

To create a lively atmosphere meant to encourage immediate, hands-on interaction between the customer and the product

Challenge

- 55" screens x 15

Winning factors

- Core i7 to support one 3D display & one touch interactive interface
- Ultra-Slim design to fit KIOSK limited space
- Cable-less design
- Customized BIOS

Lancôme Concept Store

Digital Signage | Intelligent Retail Signage (Jakarta)

Application

Displaying promotion items, digital menu board and store express promotion

Challenge

- Fanless Design
- Supports dual display
- Run on Wireless Network

Winning factors

- Intel Celeron J1900 supports dual display
- Wireless network to connect to VPN Server
- Built-in WebAccess/IMM for layout editing, html
